EDUCATION

• **Bachelor of Technology in Computer Science and Engineering** 2023-27
KL Deemed To Be University, Hyderabad CGPA: 9.77

PROJECTS

- **Think Check - AI Learning Platform**
Interactive AI-powered education platform with gamification.
 - Built interactive learning platform featuring **AI-powered quizzes** and personalized career roadmaps.
 - Implemented gamification features including progress tracking and achievement systems.
 - Developed recommendation engine for personalized learning paths based on user performance.
- **TP53 Gene Cancer Detection Pipeline**
Bioinformatics pipeline for cancer-related genetic mutation detection.
 - Developed Python-based pipeline for TP53 gene mutation identification.
 - Implemented automated sequence analysis tools reducing genomic analysis time by **50%**.
 - Created data processing workflow for efficient mutation analysis.
- **Inter-Block Outpass System (IOS)**
Full-stack web application for automated student outpass approvals.
 - Developed comprehensive full-stack web application using **React** frontend and **Node.js** backend.
 - Implemented **MySQL database** with role-based access control for Students, Faculty, Admins, and VO Officers.
 - Created automated approval workflow system reducing manual processing time by **60%**.

EXPERIENCE

- **Virtual Intern – Front End Web Development (IBM SkillsBuild) | AICTE, Edumet Foundation** Aug 2025 – Oct 2025
 - Gained hands-on experience in **front-end web development** through the IBM SkillsBuild program.
 - Developed and submitted a **project-based solution**, showcasing practical implementation of web technologies.
- **Technical Head – ACM Student Chapter | College/University Name** Feb 2024 – Jun 2025
 - Led and organized multiple **technical events and workshops** focused on emerging technologies.
 - Mentored and guided **500+ students**, simplifying complex technical concepts into easy-to-understand formats. .

TECHNICAL SKILLS

Programming: Python, Java, C, JavaScript, SQL
Data Science & ML: Scikit-learn, Pandas, NumPy, Matplotlib
Web Development: React.js, Node.js, Express.js, Rest Api
Databases & Cloud: PostgreSQL, MongoDB, MySQL
Tools: Git, GitHub, VS Code, Jupyter Notebook, Vercel, Free Cad
Coursework: AI, Machine Learning, Computer Networks, Data Structures & Algorithms, Operating Systems, DBMS

CERTIFICATIONS

- **MongoDB Python Developer Path | [Certificate Link](#)**
 - Gained hands-on experience in building and managing databases using MongoDB with Python.
 - Implemented CRUD operations, schema design, and data modeling for scalable applications.
- **AWS Academy Graduate - Cloud Foundations | [Certificate Link](#)**
 - Configured and deployed cloud services using AWS infrastructure.
 - Managed compute, storage, and networking resources in cloud-based environments.
- **CCNA: Introduction to Networks | [Certificate Link](#)**
 - Gained foundational knowledge of **networking concepts**, including IP addressing, Ethernet, and subnetting.
 - Learned to configure and troubleshoot **routers and switches** in small networks.
 - Understood basics of **network protocols, topology, and security** to support scalable networking.
